

Analytics Platform Automation Kit

A suite of 30+ automations for reliable, effective and faster MicroStrategy deployments

Enterprises leveraging large-scale MicroStrategy deployments invest significant time and specialized admin bandwidth for release lifecycle activities, audit trail maintenance, upgrades, monitoring, optimization, and documentation.

Analytics Platform Automation Kit (APAK)

Analytics Platform Automation Kit (APAK) addresses a critical gap in MicroStrategy capabilities by fully automating the most time-consuming activities required for a successful MicroStrategy deployment. It saves efforts spent on the release management activities which are repetitive, manual, and error prone. The detailed audit trails enable organizations to better align with SOX and other regulatory compliances. Automated monitoring capabilities provided by APAK breaks maintenance and monitoring silos eliminating redundant efforts and avoidable complexities in the system. APAK has been used by a number of our MicroStrategy customers to save over 4 million USD over the last three years.

Features and Benefits

Automated release management

Lower effort, higher quality, clear audit trail

Accelerated version upgrade

Faster time to value, seamless migrations

Automated monitoring

24x7, high availability, proactive checks

Predictive advisor

License, capacity, and performance optimization

Why APAK?

InfoCepts APAK is one-of-its-kind, best-in-class lifecycle automation suite enabling DevOps for a COTS product like MicroStrategy. It is ready to use, customizable and proven to be effective. APAK has helped organizations achieve guaranteed effort savings, reduce dependencies on specialized admin skills, and enabled up to 37% TCO savings on their MicroStrategy investments.

Success Story

- InfoCepts Analytics Platform Automation Kit (APAK) helped a leading market research firm to automate release lifecycle processes of a high complex (1500+ projects across 30+ i-servers), high velocity (1000+ object migrations in a quarter) MicroStrategy setup. Using APAK, we saved 120k USD per year for our customer through effort savings.
- A large media company, a specialty pet retailer, a global automotive supplier, an online retailer and many more have successfully used InfoCepts APAK to fast-track MicroStrategy deployments and saved up to 93% efforts spent on release activities.

About Accelerators

InfoCepts brings a suite of accelerators to accelerate, automate and advance your data-driven capabilities. When combined with our cross-functional expertise and solution frameworks, our accelerators dramatically (20-60%) lower time, risk and costs for your D&A initiatives. The accelerators are tangible assets—engineered to solve common problems in a reusable way—that bring our company's nearly 20-year global expertise at your service on Day one.
