

# InfoCepts Data & Analytics Platform Migration

Full-stack migration of D&A capabilities to drive your modernization outcomes without disruption

CIOs are challenged with the high cost of managing multiple analytics tools, security risks of legacy platforms, growing inventory of reports, redundant analytic capabilities, poor user adoption, and evolving business needs for data-driven insights. Organizations are looking to embrace and migrate to newer technologies, to integrate variety of data sources, advance data pipeline orchestration and support self-service analytics. Migration initiatives can be a complex process and pose business risk, if not done correctly.

The InfoCepts D&A Platform Migration solution is designed to migrate one or more blocks of analytics ecosystem quickly and efficiently using our robust methodology, accelerators, and pre-built migration toolkits.

### Adopt New Data Platforms

Migrate data, data models, data marts, and workloads

### Transform Data Workflows

Migrate, optimize ETL/ELT pipelines and data orchestration

### Migrate BI Platforms

Rationalize and migrate reports and advance analytic capabilities
