

Quick to Cloud

Accelerate and automate your data migration to cloud

Modernizing legacy data platforms has become essential to keep pace with as data volumes rise and long-term support ends. Forward-looking organizations need to move to the cloud to leverage the scalability, performance and agility benefits provided by cloud platforms.

Before migration can occur, data needs to be 'moved' to modern data systems in the cloud, but the data migration process typically is manual, expensive, error prone, and time consuming. You need a solution that can help you migrate your data to a cloud-based database offering, like Snowflake or Redshift, in a hassle free, cost effective, controlled, and accurate way.

Quick to Cloud (Q2C)

Quick to Cloud (Q2C) is a cloud migration accelerator which facilitates the migration of data from end-of-life data platforms to modern, cloud-native DBaaS offerings. Its functionally rich and serves a broad spectrum of the migration—from assessment, pre-migration checks, validation, to post migration, along with reconciliation and monitoring abilities.

Features and Benefits

Migration tool with UI

Easy to use

Migration workflow automation

Repeatable and reliable

Supports major platforms

Extensible and ready to use

Quality and cost validators

Accuracy and transparency

Why Q2C?

Q2C helps you achieve a 'first-time-right' migration to cloud for any scale, volume and complexity of project while achieving 4.7x cost savings and 1.8x time savings. It also provides the ability to measure migration accuracy and monitor costs across a multi-cloud environment in a single offering.

Success Story

Enabled accelerated migration of BI platform with 1.1 million objects, 38 TB data to AWS for a luxury retailer, which led to 44% faster time to value and prevented dozens of security and cost overspend incidents.

About Accelerators

InfoCepts brings a suite of accelerators to accelerate, automate and advance your data-driven capabilities. When combined with our cross-functional expertise and solution frameworks, our accelerators dramatically (20-60%) lower time, risk and costs for your D&A initiatives. The accelerators are tangible assets—engineered to solve common problems in a reusable way—that bring our company's nearly 20-year global expertise at your service on Day one.

Benefits

 Shorter time-to-market	 Faster transformation	 Lower risks
 Better quality	 Lower cost	 Happier users

About InfoCepts

InfoCepts is a global leader of end-to-end data & analytics solutions with nearly 20 years' experience enabling customers to derive value from a variety of data-driven capabilities. Unique amongst its peers, InfoCepts operates with the scale of a global consulting firm, yet the expertise of a niche partner.

InfoCepts elevates your data & analytics capabilities so your users can make smarter decisions and businesses can achieve better outcomes. We offer holistic solutions to your specific data & analytic needs related to modernization, optimization, innovation, and automation of your data & analytic investments. We bring together people, processes, and proprietary technology on proven platforms to deliver predictable outcomes with guaranteed ROI. Everyday our 1000+ associates across the globe affiliated to cloud, analytics, data, and business centers of excellence ensure we are finding new and better ways to help you Stay Modern.
